

As someone who travels all over the state of Ohio, I wanted to tell you just how much XM radio means to me. The variety it offers, and the Nationwide coverage is not only unsurpassed in quality and quantity, but it provides for a much safer trip. Since the programming is so vast, and I no longer have to change channels from county to county, I am much more relaxed and alert. Please reject the NAB's petition 04-160, as limiting the XM Nation will create even more hate filled, road-ragers that make the Nations highways the dangerous place they already are.
